

# Spring 2017

Another brilliant term!

Our first topic was: *What makes Britain Great?*

In this we discovered some of GB's famous landmarks, traditional foods, political system and iconic figures.

Our latest topic is: *What makes the earth angry?*

The children have thoroughly enjoyed finding out about natural disasters. We have discovered that the UK is not in the 'Ring of Fire' so we can all breathe a sigh of relief. During this half term we celebrated National Science week and created our own lava lamps and erupting volcanoes.

Linked to our topic we have covered two books: *Escape from Pompeii* and *Tsunami*. The children were hooked in with a WOW start and produced some amazing work.

Happy Birthday A.A.Milne! Our whole school came dressed up ready for the occasion. We spent a full day learning about the talented author, learning and performing poetry. Finally we created our own *Woozles*.

Thank you to Mrs Mudd for organising a karate taster session, all of our children showed fantastic focus.

Below are a few pictures to show the highlights
